SENATOR BOHLKE: I also have found out in Iowa, where we look to a similar state who's beginning on this same program, that they have 46 people, 46 people who service clients in Iowa, and we have 14 and that's...I think we're getting some more information from the department in Iowa and I will have my light on again, Senator Chambers, to join you in partnership in having the stomach to take issue with some of these things. Thank you.

They have some type of a interlocal agreement or connection with the clerks in other...in other counties. If that's the situation, it seems to me that it would not cost any more but it...and it would get the job done and we wouldn't be sitting here worrying about whether
